re: Private film material containing perverse subjects, actions and contents

Ladies and Gentlemen,

in your Community film material of private origin from all parts of the world can be retrieved, in which the partly cruel killing of animals from all phylums and species is shown.

In this connection, we neither refer to films demonstrating the cruel dealings of man with animals in a denouncing way, nor to documentations supposed to instruct the viewer. The films we refer to are shot and put in the internet by private persons for the only purpose to show cruelties against animals for the sake of themselves, with the only intention to glorify perverse fantasies and bloody/painful 'actions' and to stir up sadistic/sexual lecherousness as well in the voyeuristic viewer as in those who made the film and killed animals in front of the running camera. In these films you can see how people play in a perverse way with their power over defenceless creatures. Children, often even small children attend the crimes, are often even the perpetrators themselves or helpers.

The comments and the number of the stars given in order to recommend the films demonstrate that they are judged in exactly that way by their viewers.

You as the provider of this Community should be capable of judging every film with regard to this and reject films in the above described sense and/ or immediately erase them.

Der AKT- Gründer wurde 2002 von der **Hans-Rönn-Stiftung „Menschen für Tiere“** für seine Verdienste im Tierschutz und für seine Mitweltethik mit einem Preis geehrt.

Nach 15 Jahren in Karlsruhe hat die **AKTgGmbH** ihren Sitz im Juli 2004 nach Biedesheim verlegt, wo sie eine hochmoderne Tierhaltung und u.a. eine **Tropenhalle für Exoten und Reptilien** betreibt.

It is to be feared that these films lead to imitation of the actions shown and have the consequence of a brutalization of the viewer – this concerns also and above all children and teenagers.

The animals are killed for the sake of killing and joy and not because there is a necessity or another ‚legitimate‘ requirement. The behaviour of the butchers and their audience shows –also for the psychological amateur- the motives on which the films are based.

Please reject these cruelties by virtue of your possibilities and according to the ‚guidelines‘ you drew up yourself which we will quote in extracts in the following, by consequently erasing all film which are under suspicion –and if only basically- to be hostile to animals, perverse, glorifying cruelties or sexually stimulating.

For your information: Throatcutting of animals without **previous anaesthetization** (!) is animal cruelty and it is generally illegal according to the German Prevention of Cruelty to Animals Act. Many films on ‚YouTube‘ show throatcutting of animals, above all of poultry, cattle, sheep, goats or pigs etc.

Die Spielregeln (The Guidelines)

Wenn du die folgenden allgemeinen Regeln beachtest, wirst du auf YouTube keine Probleme haben:

- Auf YouTube sind pornografische oder **sexuell eindeutige Inhalte nicht erlaubt**. Wenn dein Video solche Inhalte zeigt, stelle es nicht in YouTube ein, auch wenn du selbst auf dem Video zu sehen bist. Wir arbeiten außerdem eng mit den Strafverfolgungsbehörden zusammen und melden jede Form der Ausbeutung von Kindern. Weitere Informationen findest du in unseren [Sicherheitstipps](#). Bleib sicher auf YouTube!
- **Poste keine Videos mit unangemessenen Inhalten, wie Misshandlungen von Tieren**, Drogenmissbrauch oder Anleitungen zum Bau einer Bombe.
- **Drastische oder grundlose Gewalt ist nicht zulässig**. Wenn in deinem Video jemand verletzt, angegriffen oder erniedrigt wird, solltest du es nicht einstellen.
- **YouTube ist keine Schocker-Website. Stelle keine schockierenden Videos von Unfällen, Leichen oder Ähnlichem ein.**

We know that ‚YouTube‘ is an International Community, and this is why we ask you in the name of all ethically thinking people to bring our request home to your controlling bodies. The most terrible films come from Asia, Southamerica, Southern Europe and Northamerica – films from German-speaking Europe didn’t strike us that much in this regard. As an example for the films in question we enclose the relevant links- we don’t have the time to find them all and to judge them as there are so many of them.

We ask you for your statement and the compliance to our request as soon as possible,

Yours sincerely
